NOTICE OF CONDITIONS OF ISSUE OF FIXED FEE FOREIGN LIQUOR LICENCES.

No. 2—The following notification is issued in supersession of Notification No. 2, dated 30th January 1926, published in the *Fort St. George Gazette*, Part II, dated 2nd February 1926.

In exercise of the power conferred on him under section 4 (*g*) of the Madras Abkari Act, 1886, the Commissioner of Excise hereby prescribes, under section 24 of the Act, the following rules for regulating the issue of licences on fixed fees for the compounding, blending, bottling and sale of potable foreign liquors, locally made foreign liquors and coconut toddy arrack from and after the 1st April 1927 within the limits of the Madras Presidency :—

1. The term 'foreign liquor' in these rules includes all wines, spirits and beer imported into the Presidency by sea or land; plain rectified spirits imported or locally made and on which the tariff rate of duty has been paid; and beer brewed in India or beer imported in a condensed form and afterwards converted into potable beer and duly excised, but excludes locally made foreign liquor, denatured spirits, coconut toddy arrack and ordinary arrack. In the case of licences to chemists, druggists and other approved firms or persons, however, for the sale of pure rectified spirits only, the term 'foreign liquor' means pure rectified spirits imported from foreign countries by sea or manufactured in this country and excised at the tariff rate of duty.

'Locally-made foreign liquor' is spirit manufactured or compounded in British India and made in colour and flavour to resemble gin, brandy, whisky or rum imported from foreign countries. It is excised at Rs. 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits.

'Coconut toddy arrack' is spirit manufactured from toddy at the Chowghat distillery in Malabar and excised at Rs. 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two imperial gallons

NOTE.—1. The maximum strengths at which imported and locally-made foreign spirits may be sold are 25° U P. for gin, 30° U P for Colombo arrack and coconut toddy arrack and 2.' U P for all other kinds of spirits excluding Indian arrack, except denatured spirits

3. Holders of Foreign Liquor licences should not dispose of any liquor imported by them and cleared from the Custom House on payment of provisional duty before acquainting themselves with the true strength of the liquor and satisfying themselves that it is not below the minimum saleable strength If on test in the Commissioner's Laboratory it is found that any such liquor is below the minimum saleable strength and has been sold, the excise rules will be rigidly enforced against such licensees.

4. 'Rectified spirits' includes 'absolute alcohol'.

'Indian' beer is beer brewed in India (*a*) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane sugar is employed, (*b*) which is brewed at a higher original gravity than 1,058° on a standard saccharometer and (*c*) the maximum price of which at the brewery is Rs. 40-0-0* per hogshead *plus* the excise duty in force at the time of issue.

*The supply of Indian beer from Bangalore Brewery will be restricted to shops which have obtained beer from that brewery during 1925-26

2. Licences for the sale of foreign liquors, locally-made foreign liquors and coconut toddy arrack shall be of the following descriptions :—

I. *Wholesale licences for the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack, not to be drunk on the premises.*—These will be issued on an annual fee of Rs. 1,000 in Madras and Rs. 250 in other districts, at the discretion of Collector. Under these licences the sale of liquor in quantities less than two imperial gallons or a dozen repated quart bottles or two dozen repated pint bottles of each kind at a time is prohibited. The holders of the licence will have the privilege of issuing to licensed dealers only samples of liquor in quantities not exceeding one pint. In Madras town, holders of this licence will not be allowed to sell 'Indian' beer. Holders of this licence are prohibited from selling coconut toddy arrack in bulk to private persons in Malabar district and are permitted to sell it to such persons only in bottles, sealed and labelled in accordance with the bottling rules (*a*).

II. *Retail licences for the sale of foreign liquor, locally made foreign liquor and coconut toddy arrack, not to be drunk on the premises* (*a*).—These will be of two kinds—one for the sale of all kinds of foreign liquor, except 'Indian' beer and of locally-made foreign liquor and coconut toddy arrack and the other for the sale of beer brewed in India.

*(*a*) The former will be issued at the discretion of the Commissioner and Collectors on payment of an annual fee of Rs. 750 or Rs. 1,000 in the Nilgiris except Gudalur, Rs. 500 in the town of Madras, Rs. 250 in towns having a population of 25,000 and over and in Kodaikanal, Yercaud and Cuchin, in Shiyali, Tirutturaipundi, Tiruvadanai, Tenkasi and Ambasamudram taluks

and Rs. 150 in the rest of the Presidency.* Under these licences the sale of liquor in a quantity less than one reputed pint and greater than two imperial gallons in one transaction will be prohibited,

(b) Retail licences for the sale of beer brewed in India will be issued to successful bidders for beer shops on payment of an annual fee of Rs. 50.

It will at all times be optional with the Collector to withdraw licences of this description if it should appear that the sale of liquor to persons who have not partaken of meals in the refreshment-room is permitted to such an extent or so habitually that the refreshment-room may fairly be classed as a tavern. Sale of liquor for removal from the premises will not be allowed under these licences. The premises to be used for the sale of liquor under these licences must be at least of the monthly rentable value of Rs. 50 in Madras and in Cotacamund and Coonoor Municipalities and of Rs. 25 in the rest of the Presidency.

V. *Occasional licences*, such as licences for the sale at refreshment stalls in connexion with race meetings and public entertainments. These will be granted by Collectors at their discretion for periods not exceeding ten days at one time and at such fees not exceeding Rs. 100 on each occasion as they may determine. No removal of liquor from the premises will be allowed under these licences.

VI. *Special licences* will also be granted by Collectors in consultation with the officers of the Excise Department when the circumstances are such as not to allow of the issue of licences of any of the above descriptions on such terms and conditions and for such periods as they may on each occasion determine.

VII. *Auctioneer's licences*.—Annual fee, Rs. 5. The following are important provisions of this licence:—

(a) Liberty to give sample bottles in respect of all consignments, whether trade consignments or the property of private persons, in order that intending purchasers may have the opportunity of testing high class wines and spirits at their own houses before the auction sale.

(b) Authority to sell wines, spirits and beer in less quantities than whole dozens of each description in the case of sale by auction of the property of private parties or estates or of trade consignments which are alleged or otherwise unmerchantable.

(c) Authority to sell by auction at places other than that specified in the licence, viz., at any private residence at which the licensee may hold an auction.

VIII. *Licences for the sale of pure rectified spirits.*—These will be issued to chemists and druggists and other firms or persons specially approved by Collectors, on payment of an annual fee of Rs. 10. Under these licences the possession of pure rectified spirits in excess of ten imperial gallons (or such larger quantity as the Collector may, in consultation with the officers of the Excise Department, specially authorize) is prohibited. Pure rectified spirits must not be sold under these licences for other than *bona fide* medical, industrial and scientific purposes, and the maximum limit of sale at one time to the same person is restricted to one reputed pint in the case of sale to a private individual, two reputed quarts in the case of sale to a chemist, medical practitioner or scientific body and three imperial gallons to any Government, Local Fund or Municipal hospital. Receptacles containing rectified spirits should be labelled with labels showing the kind or description of spirit contained therein and the place of manufacture; consignments of rectified spirit imported from other provinces should not be opened before they are verified by an Excise Officer. Accounts

III. *Hotel licences for the supply of residents in hotels and boarding houses.*—These will be of two classes and subject to payment of an annual fee of Rs. 500 or Rs. 250 in Madras, of Rs. 100 or Rs. 50 on the Nilgiris, and of Rs. 50 or Rs. 25 in the rest of the Presidency, as may in each case be determined by the Collector. No liquor may be sold under these licences otherwise than to residents in hotels and boarding-houses for their own use and that of their guests, or to casual visitors requiring liquor with the meal or meals supplied to them.

In Madras a holder of a hotel licence desirous of setting up and maintaining in his hotel a bar or bars may, on payment of a monthly fee of Rs. 100 for a first-class bar or Rs. 50 for a second-class bar, be granted a separate licence to be called a bar licence. This will cover the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack under the same conditions and to the same extent as the tavern licence.

In Madras, special bar licences will also be issued to others than holders of hotel licences with the previous sanction of the Commissioner. The fees in such cases will be fixed by the Commissioner and the licences will entitle the holders to sell to all comers.

IV. *Refreshment-room licences* will be of two classes—

(a) *For refreshment rooms maintained by, or under the supervision and control of, railway companies and proprietors or managers of lines of tramways for the supply on the premises of travellers by such railways or tram lines*.—The annual fee payable for each licence will be fixed by the Commissioner from time to time. Under these licences liquor may be sold to *bona fide* travellers, or to other persons served with regular meals in the rooms for consumption on the premises to any extent, provided that no more than one reputed quart of spirits or two reputed quarts of any other kind of liquor sold at the refreshment-room may be sold at one time to any such traveller for removal from the premises.

(b) *For refreshment rooms in which the sale of liquor is ordinarily combined with the supply of meals or of cold collations prepared and served in the European manner*.—The annual fee will be Rs. 500 in Madras and Rs. 75 in the rest of the Presidency.

*NOTE.—In places where there are beer shops, holders of retail licences for the sale of all kinds of foreign liquor except Indian beer will be permitted to sell beer brewed in India on English principles only in bottles as bottled at the brewery at which it was brewed.

(c) Holders of F L-1 and F L-2 licences may fetch and sell rectified spirit *provided* (1) that a separate account be kept for transactions under this head, (2) that receptacles containing rectified spirits are labelled with labels showing the kind of description of spirit contained therein and the place of manufacture, (3) that consignments of rectified spirits imported from other provinces are not opened before they are verified by an Excise Officer, (4) that accounts are maintained in the prescribed form and show in the case of each consignment of rectified spirit obtained from other provinces or India the source of supply, route (and name of steamer, if obtained by sea) and such other particulars as may be prescribed. Statements showing separately the consumption of imported and locally-made rectified spirit should be furnished.

should be maintained in the prescribed form and must show in the case of consignments of rectified spirits obtained from other provinces in India, the source of supply, route (and name of steamer, if obtained by sea) and such other particulars as may be prescribed. Statistics showing separately the consumption of imported and locally-made rectified spirits should be furnished to Collectors.

IX. *Licences for the sale of medicated wines and similar preparations* containing 20 per cent and upwards but not more than 42 per cent of proof spirit will be issued by Collectors on payment of an annual fee of Rs. 10.

X. *Licences for compounding and blending foreign liquors and locally-made foreign liquors* will be granted to holders of wholesale licences by Collectors and licences for *compounding* to licensed distillers by the Assistant Commissioner for Distilleries on payment of an annual fee of Rs. 250.

XI. *Licences for the bottling of foreign liquors, except beer brewed locally and or locally-made foreign liquors and coconut toddy arrack*, will be granted to holders of wholesale licences by Collectors and to licensed distillers by the Assistant Commissioner for Distilleries on payment of an annual fee of Rs. 50.

5. Any two or more of the above kinds of licences may be granted to the same person for the sale of liquor in the same premises.

6. No premises shall be used for the sale of liquor unless and until approved by the Collector.

7. All licensees shall maintain and furnish to Collectors statistics showing separately the consumption of imported foreign liquors and locally made spirits and beers and coconut toddy arrack.

8. All licenses (other than occasional and renewal licences) will have effect for the official year, i.e., from the 1st April in each year until the 31st March of the following year.

9. The full fee on all fixed fee foreign liquor licenses shall be paid in advance at the time of issue of the licence.

10. For the convenience of the trade, Collectors will, so far as possible, receive and dispose of applications for licences under clause IV (5) to have effect during the following official year before the tavern sales for that year. Licences for the sale of liquor in mufussil refreshment-rooms should be very sparingly given.

11. All further information may be obtained and forms of licences may be procured at a charge of two annas each at the offices of Collectors.

AUCTION FOR THE SUPPLY OF RATION ARTICLES TO THE DISTRICT JAIL, BERHAMPUR, GANJAM.

NOTICE is hereby given that the Superintendent, District Jail, Berhampur, will hold auction at the District Jail, Berhampur, at 3 p.m. on Thursday the 3rd March 1927 for the supply of the following articles of rations during the year 1927-28. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above, and are accompanied by the earnest money specified in the schedule. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed 'Tender for the supply of rations articles to the District Jail, Berhampur'. They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the District Jail, Berhampur, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest-money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreement with the jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should before signing such agreements, deposit a security of ten per cent of the total value of the supplies undertaken. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors.) Failing compliance within the time specified, the earnest-money may be confiscated, and in the event of withdrawal, they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, *plus* so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the jail except on a requisition signed by the Superintendent, or some responsible person authorized by him in writing to do so 'by order'.

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment of articles delivered on the jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, in which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. During the prevalence of plague in the vicinity of the jail, or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in; also if for any other reason the Superintendent considers exposition of articles to sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply, a memorandum or advice note, duly signed, showing the number or quantity tendered for acceptance, also to sign and return within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Question in connexion with any supposed short payment may be referred to the Superintendent separately but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the jail in consequence of the annulment from the security deposited by the contractors or other moneys due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

Failing compliance within the time specified, the earnest money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, *plus* as much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

Contractors must submit to receive payment of their bills in whole rupees in the case of bills amounting to Rs. 25 and upwards, to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will

be treated as a whole rupee for the purposes of the account. The totals of bills for less than Rs. 25 are rounded off to the nearest anna (i.e., amounts below six pies are disregarded and six pies and above are taken as an anna).

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in; also, if for any other reason, the Superintendent considers exposition of articles to sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note, duly signed, showing the number or quantity tendered for acceptance. Also to sign and return, within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment from the security deposited by the contractors or other monies due to them and, in the event of any residue, by legal measures if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

(*2*) For the purpose of determining the equivalent rate applicable to the sale of currency under this section, twenty-one rupees, three annas and ten pies shall be deemed to be equivalent to such sum in that currency as is required to purchase one tola of fine gold in that country at the rate at which the principal currency authority of that country is bound by law to give gold in exchange for currency, after deduction therefrom of an amount representing the normal cost per tola of transferring gold bullion in bulk from Bombay to that country, including interest on its value during transit.

(*4*) In this section "gold standard country" means any country from which any person is at liberty to export gold and in which any person may obtain gold on demand from the principal currency authority on payment of the equivalent thereof, as prescribed by law, in legal tender money.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to those recommendations of the Royal Commission on Indian Currency and Finance which relate to the immediate stabilisation of the Rupee in relation to gold and to the interim measures required during the transition period pending the bringing into operation of their proposals for the transfer to a Reserve Bank of India of the control of the Note issue and other functions at present performed by the Secretary of State and by the Government of India.

2. The Commission recommend in paragraph 175 of their Report that the Rupee should be established in relation to gold at a rate corresponding to an exchange rate of 1*s.* 6*d.* gold for the rupee, that is, at the rate of one rupee for 8·47512 grains of gold. Clause 2 and all but the last portion of sub-clause (*a*) (1) of clause 3 are designed to give effect to this recommendation and at the same time to remove the legal tender quality of the sovereign and the half-sovereign, which are at present legal tender at the rate of 2*s.* for the rupee, in accordance with the Commission's recommendation in paragraph 66 of their Report that these gold coins must be demonetised in order to enable a real gold bullion standard to be established. In order,

however, to enable the small holders of these coins to convert them into legal tender money, it is proposed to provide for the receipt of these coins in any quantities at their bullion value at the rate of 8 47512 grains of gold per rupee.

3. The Commission recommend in paragraph 106 of their Report that, until the Reserve Bank of India takes over the control of the Note issue, the Government of India must be under a statutory obligation to buy gold and to sell gold or gold exchange at its option at the gold points of the accepted gold parity of the rupee. During the transitory period, the Government of India would be engaged in building up the gold holding in the Reserve and would not therefore exercise its option to give gold. Clauses 4 and 5 are designed to give effect to this recommendation as modified above.

4. Opportunity has been taken to amplify the *Explanation* to sub-section (3) of section 19 of the Indian Paper Currency Act, 1923, which contains the temporary provisions, so as to provide for the valuation of the gold bullion held in the Paper Currency Reserve on the lines of clause (a) of sub-section (5) of section 18 which refers to the permanent provisions which have not yet come into force.

5. It was announced in the press communiqué dated August the 4th, 1926, which accompanied the issue of the Commission's Report, that, pending legislation, the Government would take such steps as may be necessary to confine the movements of exchange within the approximate upper and lower gold points as calculated on the basis of a 1*s.* 6*d.* rupee, namely, 1*s.* 6 1/32*d.* and 1*s.* 5 31/32*d.*, respectively, and the Government undertook in the same communiqué to lay proposals before the Legislature during the next Session in order to give the Legislature the earliest possible opportunity of considering the matter. A Bill designed to give effect to that undertaking was accordingly placed before the Legislature in August last. Further consideration of the Bill was postponed and the Bill automatically lapsed on the dissolution of the last Assembly. The present Bill is substantially the same in its purposes as the Bill introduced in August last, but the opportunity has been taken to effect certain improvements in the drafting.

The 12th January 1927. BASIL P. BLACKETT.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to the recommendations of the Royal Commission on Indian Currency and Finance for the establishment of a Gold Standard for India and for constituting a Reserve Bank of India to control the working of that Standard. The various clauses of the Bill are briefly explained below.

Clause 1.—It is proposed to give the Bank the sole right of note issue for a period of twenty-five years in the first instance subject to renewal as recommended in paragraph 141 of the Commission's report. The provision that the Act shall come into force not later than 1st January 1929 is based upon the time table recommended by the Commission in paragraph 165 of the report.

Clause 3.—The name, the Reserve Bank of India, is that suggested in paragraph 92 of the report.

Clause 4.—The Commission recommend that the capital of the Bank should be Rupees five crores fully paid up, and that the Imperial Bank's shareholders should be given the first opportunity of subscribing for the capital stock of the Bank as consideration for foregoing important privileges which the Imperial Bank now enjoys. A clear-cut division of functions between the Reserve Bank of India and the Imperial Bank of India is the essence of the proposal creating a Reserve Bank and, if avoidable, it is undesirable to give the shareholders of the Imperial Bank of India a preponderant voice in deciding the currency policy of the Reserve Bank. It is, therefore, proposed in this clause to give the Imperial Bank of India as an institution and not to its individual shareholders the option of subscribing thirty per cent of the capital. It will be open to the Imperial Bank to distribute the allotment among its shareholders if it so desires. The Central Board of the Imperial Bank of India has expressed its willingness in principle, in view of the other terms proposed to be given to the Imperial Bank, to recommend this proposal for the acceptance of the shareholders.

It is necessary that the Government should be prepared to take up any unallotted shares, but it is not desirable that these should continue to be held permanently by them. It is, therefore, proposed that the

Governor General in Council should dispose of any unallotted shares taken up by him within three years.

Clause 5.—This is based on paragraph 101 of the Commission's report. It is necessary to make provision for the contingency of a reduction of the share capital in regard to which the Commission have made no recommendation.

Clause 6.—The Head Office of the Bank will be located in Bombay as recommended by the Commission in paragraph 97 of the report.

Clause 8.—This gives effect to the recommendations in paragraphs 95 and 96 of the report.

Clause 9.—This is based on paragraph 94 of the Commission's report. The Commission recommend therein that the Reserve Bank should have Local Boards in Bombay, Madras and Calcutta, and that representatives from these Boards should constitute a majority on the Central Board. It is considered undesirable for various reasons to base the constitution of the Central Board on a system of Local Boards. If the Local Boards are dispensed with, it is necessary that shareholders as a body should elect those Directors who are not appointed by the Government.

As regards nominated Directors, it is considered desirable in order that all interests may be represented that the three Directors nominated by Government should represent Commerce, Industry and Agriculture, respectively. The term of office of nominated Directors is proposed by the Commission to be fixed at one year which is too short to conduce to efficient work. It is, therefore, proposed to extend it to three years.

Clause 10.—It is provided in this clause that the Governor, Deputy Governor or any nominated Director may be removed by the Governor-General in Council if a resolution to that effect is passed by a majority of the Board consisting of not less than nine Directors, that is by a substantial majority of the Board.

The provision for the removal of elected Directors follows the lines of a similar provision in the Imperial Bank of India Act. It seems undesirable that elected Directors should be removable by a bare majority at a general meeting.

Clause 11.—As there may be no Local Board at Calcutta, it is desirable to provide that the Central Board shall meet in Calcutta at least once in every four months.

Clause 12.—This gives effect to the recommendations in paragraph 98 of the Commission's report.

Clause 13.—This is based upon similar provision in section 30 of the Imperial Bank of India Act. It is necessary to make special provision for the formation of the first Board.

Clauses 14 and 15.—These embody the proposals in Schedule II to the report defining the functions and capacities of the Bank.

The Commission have not provided for the Reserve Bank receiving non-interest-bearing deposits from private persons. It is considered that like most other Central Banks in the world the Reserve Bank of India should also be allowed to receive deposits from private persons provided no interest is paid.

The financing of industry and the movement of crops in India is carried on by cash credits and as provision recommended by the Commission stands it will be difficult for the Reserve Bank to assist other banks in providing necessary credit without some considerable

changes in banking methods. It is, therefore, proposed in sub-clause (*b*) (*c*) that for a period of five years the bank should be authorized to advance money against promissory notes of scheduled banks under certain conditions.

It is considered undesirable to limit the amount of securities held at any time in the Banking department to so low a figure as 25 per cent of the liabilities as recommended by the Commission in clause 3 (*d*) of Schedule II to their report, as in view of the very fluctuating nature of deposits the limitation might force the sale of securities merely to bring the Bank within the provisions of its charter for a few days.

The Commission recommend in clause 7 (a) of Schedule II to the report that the paid-up capital and reserve may be invested in securities of the Government of India having not more than five years to run. In view of the fact that the Government of India are now funding their short term loans into long-term loans the limitation of maturity to five years might unduly restrict the power of the Bank to invest in such securities after a few years. It is, therefore, proposed to modify the provision so as to permit of investment in Government of India securities of any maturity.

Clause 15.—This gives effect to the recommendation in paragraph 102 of the report regarding operations in the open market.

Clauses 17 and 18.—These give effect to the recommendations in paragraph 140 of the report regarding the relations of the Bank with the Government.

Clause 19.—This gives effect to the recommendations in paragraph 141 of the report.

The Commission recommend that the right of note issue should be transferred to the Bank as soon as the Bank was in a position to issue its own notes. It is not desirable to postpone the early functioning of the Bank till it is able to arrange for the manufacture and issue of its own notes, and it is, therefore, proposed to allow the Bank to issue notes of the Government of India for a year from the date on which the Bank takes over the control of the currency.

Clause 20.—This gives effect to the recommendations in paragraph 143 of the report regarding the separation of the Banking and Issue Departments of the Bank.

Clause 21.—This gives effect to the recommendations in paragraph 142 of the report; freedom is retained to postpone the issue of one rupee notes for a time if such postponement appears desirable with reference to the size of the holding of silver rupees in the Reserve.

Clause 22.—This gives effect to the recommendations in paragraph 155 of the report regarding the form and material of Bank notes.

Clause 23.—This is based upon recommendation in paragraph 149 of the report that the notes of the Bank shall be legal tender for the payment of any amount and shall be guaranteed by the Government of India.

The Commission recommend in paragraph 141 of the report that not later than 5 years from the date of the Bank charter becoming operative the Government of India notes still outstanding should cease to be legal tender except at Government treasuries. By the end of 5 years very few Government of India notes will remain outstanding, and it is undesirable to take away the legal tender character of the note in the absence of any very definite advantage to be gained by so

doing. It is, however, proposed to take power for the Governor-General in Council and the Bank to sell in notes of particular series, if necessity arises.

Clause 24.—This is based on paragraph 135 of the Commission's report, regarding the re issue of Bank notes.

Clause 25.—This is based upon a similar provision in the Indian Paper Currency Act, 1923, and is necessary to protect the Bank against civil action in respect of notes lost, stolen, mutilated or imperfect.

Clauses 26 and 27.—These are based upon a similar provision in the Indian Paper Currency Act, 1923

Clause 28.—This gives effect to the recommendations in paragraph 145 of the Commission's report regarding the constitution of the Reserve.

Clause 29.—This gives effect to the recommendations in paragraph 148 of the Commission's report defining the liabilities of the Issue Department.

The provision in sub clause (3) of this clause is similar to that in the proviso to sub section (5) of section 18 of the Indian Paper Currency Act, 1923, although it differs in detail. Under the Indian Paper Currency Act, 1923, notes of denominational value exceeding rupees one hundred cannot be deemed to be not in circulation until 100 years after the date of issue, whereas notes of lower denominations are so deemed after 40 years. This distinction between the higher and the lower denominations of notes is undesirable. In practice, notes of higher denomination are much less likely to be outstanding for a very long period than notes of lower denomination, and the practice at the Bank of England is to treat all notes as not in circulation after 40 years. It is considered that the Reserve Bank might with advantage follow the practice of the Bank of England.

Clause 30.—This is based upon paragraph 144 of the report. The Commission recommend that coin and bullion and securities to be transferred to the Issue Department should be specified in a Schedule. The amount of notes in circulation at the time of inauguration of the Bank will not be known when the Bill is introduced and passed and also between the dates of introduction of the Bill and its passing into law and the inauguration of the Bank, there will be changes in the constitution of the reserve held against note issue. It is, therefore, proposed to provide for the transfer to the Bank of assets of such a nature as to enable the Bank to constitute the Reserve in accordance with the requirements laid down in the Act. In order to give the new Bank the necessary margin over minimum requirements, it is proposed to include in the assets transferred, gold and gold securities equal to one-half of the liabilities of the Issue Department as suggested in clause 3 (a) of Schedule III to the report.

Clause 31.—This gives effect to the recommendations in paragraph 147 of the report regarding the disposal of surplus rupees by the Bank

Clause 32.—This gives effect to the recommendations in paragraph 147 of the report. As it would be uneconomical to coin new rupees until the stock of silver rupees in the Reserve is reduced to the minimum of 25 crores or one-tenth of the total amount of the Reserve, whichever is greater, it is proposed to limit the right of the Bank to demand delivery of rupee coin from Government.

Clause 33.—This gives effect to the recommendations in paragraph 146 of the report regarding the mutual obligations of the Government and the Bank in regard to rupee coin.

Clause 34.—This gives effect to the recommendations in paragraph 152 of the report.

Clause 35.—This gives effect to the recommendations in paragraph 159 of the report regarding the sale of gold by the Bank

The provision in sub-clause (*1*) regarding the latest date on which the obligation to sell gold should come into force is based upon the recommendation of the Commission in paragraph 165 of the report.

Clause 36.—This gives effect to the recommendation in paragraph 166 of the report The Commission recommend that during the transition period the Reserve Bank shall be under an obligation to sell gold or gold exchange at its option As the Bank will be engaged in building up its gold holding in order to be in a position to undertake the definite obligation to sell gold later, it is proposed to omit the option to sell gold during the interim period.

Clause 37.—This gives effect to the recommendations in paragraphs 151 and 160 of the Commission's report.

Clause 38.—This gives effect to the recommendations in paragraph 153 of the report regarding the suspension of Reserve requirements.

Clause 39.—This gives effect to the recommendations in paragraph 154 of the report regarding the exemption of the Bank from the payment of any tax or duty upon its note issue.

Clause 40.—The provisions in this clause are in accordance with the recommendations in paragraph 149 of the report. The Commission recommend that the Governor-General in Council should have the right to take over the assets of the Issue Department so far as they are required to meet the liability of the note or of rupee redemption. It is proposed to give the Governor-General in Council the right to take over the assets not only of the Issue Department but of the Banking Department as well, as in theory such a necessity might arise if the Bank failed to keep sufficient assets in the Issue Department. A provision is also made for the carrying on of the note issue in such circumstances by some other agency determined by the Governor-General in Council.

Clause 41.—This gives effect to the recommendations in paragraph 161 of the Commission's report with slight modifications. The percentages for minimum reserve balances recommended by the Commission appear somewhat high for India. It is, therefore, proposed to reduce these percentages to 7½ and 2½ per cent of the demand and time liabilities, respectively.

The definition of "bank or banker" suggested in paragraph 162 of the Commission's report is imperfect, but it is difficult to arrive at any satisfactory definition. It is, therefore, proposed to exhibit in a Schedule attached to the Bill the banks to which the provisions in this clause should apply in the first instance and to give the Governor-General in Council power to make alterations in the Schedule later.

As the monthly return will show only the position at the close of the month to which it relates, it is necessary to provide for the receipt of the information mentioned in sub clause (*3*) of this clause.

It is also necessary that provision should be made to enable the Government to take action not only on the monthly returns submitted

by the Bank, but also on any report received from the Board of the Reserve Bank.

Clause 42.—This follows the intention of paragraph 87 of the report.

Clause 43.—This is based upon the recommendations in paragraph 100 of the Commission's report. It is considered unnecessary to build up the Reserve Fund as quickly as the Commission suggest, and a lower rate of accumulation has, therefore, been proposed.

Clause 44.—This gives effect to the recommendations in paragraph 158 of the Commission's report.

Clauses 45 to 47.—These give effect to the recommendations in paragraph 156 of the report.

Clause 48.—This gives effect to the recommendations in paragraph 157 of the report.

Clause 49.—It is necessary to make provision for the contingency of the liquidation of the Bank and the distribution of the Reserve Fund and surplus assets, if any, of the Bank.

Clause 50.—This is based upon the recommendations in paragraph 184 of the report. The Commission proposed that the Governor-General in Council should be given absolute power to make regulations. It is thought preferable that regulations should be made by the Board with the previous approval of the Governor-General in Council.

Though Local Boards are not to be constituted on the creation of the Reserve Bank, it is proposed in sub-clause (*2*) (*e*) to give power to the Reserve Bank to establish such Local Boards if considered necessary later on and to delegate to them such powers and functions as may be desirable

Clause 51.—The obligations proposed to be imposed on the Government by the Currency Bill to receive sovereigns and half-sovereigns from the public at their bullion value will be taken over by the Bank simultaneously with the transfer of the conduct of the note issue to it.

The Second Schedule.—The provisions contained in this Schedule have been accepted by the Central Board of the Imperial Bank of India and will be placed before the shareholders of the Imperial Bank. The proposed terms will involve no fresh charge on the taxpayer. They are designed to remunerate the Imperial Bank of India for the agency work done for the Reserve Bank and the loss in respect of non-paying branches and to encourage the further extension of banking in India.

STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on Indian Currency and Finance have recommended that with the transfer to the Reserve Bank of India of the purely central banking functions, which are at present performed by the Imperial Bank of India, the latter should be freed from the restrictions which on account of its hybrid nature are at present imposed upon that Bank. This Bill is intended to remove some of those restrictions and to modify the control of Government over the

operations of the Bank. The amendments to the Imperial Bank of India Act proposed in this Bill have been accepted by the Central Board of the Bank subject to any further modifications deemed necessary later on in the light of further consideration. The more important provisions of the Bill are :—

It is proposed to replace section 10 of the Imperial Bank of India Act by another authorising the Bank to enter into an agreement with the Reserve Bank of India to conduct Government business as agent of the Reserve Bank.

It is proposed to remove the limitation imposed by section 9 on the business which the Bank may transact at its London office, and to give specific powers to the Bank to open branches outside India in London and elsewhere.

It is also proposed to give the Bank extended powers in regard to its internal business and to remove restrictions on the foreign exchange business which the Bank may transact.

At present the Controller of the Currency is an *ex-officio* member of the Central Board of the Bank and the Governor-General in Council nominates 4 other members to the Board under section 26 of the Imperial Bank of India Act. Although the Imperial Bank of India will transact Government business as the agent of the Reserve Bank, it will have no direct connection with the Government, and it seems unnecessary for the Government to retain any measure of control over the operations of the Bank by the appointment of members to the Board. It is, therefore, proposed to remove the right of the Governor General in Council to appoint such members.

The Governor-General in Council is now entitled under Regulation 54 of the Imperial Bank of India Act to require of the Central Board of the Bank any information touching the affairs of the Bank and the production of any documents of the Bank, and he may also require the publication of such statements of its assets and liabilities, in such form and at such intervals as he thinks fit. It is proposed to remove this power from the Governor-General in Council, but, in order that he may be in a position to examine the affairs of the Bank in case of necessity, the provision by which he may appoint auditors under Regulation 59 to examine and report upon the accounts of the Bank is proposed to be retained.

2. A number of minor amendments incidental to the above are also made, and opportunity has been taken to introduce some small changes in the Act in sections which have been found difficult to work in practice.

STATEMENT OF OBJECTS AND REASONS.

Section 6 of the Steel Industry (Protection) Act, 1924 (XIV of 1924), provides that, before the 31st day of March 1927, the Governor-General in Council shall cause an inquiry to be made as to the extent, if any, to which it is necessary to continue the protection of the steel industry, and as to the duties and bounties which are necessary for the purpose of conferring such protection. By a Resolution, dated 3rd April 1926, the Tariff Board was directed to make the inquiry contemplated by the Act, and its recommendations are contained in the

Report which has been published. This Bill is designed to give effect to the main recommendations of the Board.

2. In accordance with the Tariff Board's proposals, the Bill provides for the continuance of protection to the steel industry by means of increased duties on imports and not by the grant of bounties on production. The increased duties will have effect for a period of seven years from the 1st of April 1927 to the 31st of March 1934 It is made clear, however, in the preamble and in clause 2 (3) of the Bill that the limitation to seven years is applicable only to the rates of duty proposed to be fixed, and not to the policy of discriminating protection itself. Clause 3 of the Bill also provides for a statutory inquiry in the year 1933-34 in order to ascertain what amount of protection may still be necessary, and the manner in which it should be conferred.

3. Following the Tariff Board's recommendations, the Bill provides for the imposition of differential rates of duty on certain iron and steel articles Such articles, if of British manufacture, will be subject to a lower rate of duty—which the Board call the basic duty —and if not of British manufacture, to a higher rate of duty. It is the difference between these two rates which constitutes what the Board call the additional duty. Power is taken in clause 2 (1) of the Bill to increase or reduce the duties on articles not of British manufacture, subject to the proviso that the duties on such articles shall not be less than the duties on similar articles of British manufacture. The duties to be imposed on unfabricated iron and steel by the Schedule to the Bill are the specific duties recommended by the Tariff Board. The Schedule also imposes on the various classes of fabricated steel an *ad valorem* duty of 17 per cent., and also, if the articles are not of British manufacture, an additional specific duty. The Board have proposed that the *ad valorem* duty on each class of fabricated steel should be subject to a specific minimum rate, in order to avoid the anomalies which have been found to arise when, as sometimes happens, the *ad valorem* duty on fabricated iron or steel is lower than the specific duty on unfabricated iron or steel of the same kind. Effect has been given to this proposal in the Schedule to the Bill, but in order to facilitate Customs administration and to prevent disputes as to the correct classification of particular consignments, the minimum and additional duties on all classes of fabricated iron or steel (other than iron or steel sheets) have been fixed at the same amounts

4. Apart from the proposals made by the Tariff Board in the report submitted on the completion of the statutory inquiry, the Bill gives effect also to two recommendations made by the Board in earlier Reports Both are closely connected with the continuance of protection to the steel industry. It is proposed to remove the duty on unwrought zinc and the main object of this change is to reduce the cost of manufacturing galvanized sheet and consequently the amount of protection it requires. The second proposal is the reduction of the duty on block tin from 15 per cent *ad valorem* to Rs 250 a ton, which has already been approved by Resolutions of the Assembly, passed on the 11th February 1926, and of the Council of State, passed on the 23rd February 1926, with the object of giving supplementary assistance to the tinplate industry Effect was given to the change by means of a notification under section 23 of the Sea Customs Act, and it is now proposed to provide for the reduction of duty by an amendment

to the schedule of the Tariff Act, 1894. It is not intended that the removal of the duty on unwrought zinc and the reduction of the duty on block tin should remain in force only for a period of seven years, and by clause 2 (3) of the Bill these amendments of the Tariff Schedule are excluded from the operation of the seven years limit.

5 Protective duties were imposed by the Steel Industry (Protection) Act, 1924, on certain kinds of iron or steel wire and on wire nails. The Tariff Board found it impossible to include in their report proposals regarding these articles, and it is not certain that the Board will be able to submit their recommendations in time to allow of their consideration while the Bill is before the Legislature. In the schedule to the Bill, therefore, the existing protective duties on wire and wire nails are continued, but it is the intention of the Government of India to bring the question of the continuance or modification of these duties before the Legislature in the Simla Session.

STATEMENT OF OBJECTS AND REASONS.

Clause 11 of the Letters Patent for the High Court of Judicature at Madras provides that the High Court shall have ordinary original civil jurisdiction "within such local limits as may from time to time be declared and prescribed by any law made by the Governor in Council, and, until some local limits shall be so declared and prescribed, within the limits of the local jurisdiction of the said High Court of Madras at the date of the publication of these presents, and the ordinary original civil jurisdiction of the said High Court shall not extend beyond the limits for the time being declared and prescribed as the local limits of such jurisdiction."

The present limits of the jurisdiction of the Hight Court are those of the old Supreme Court. This Court took the place of the old Recorder's Court which exercised jurisdiction over a specific area defined in a Proclamation, dated 2nd November 1798. As

no law declaring the jurisdiction of the present High Court at Madras has so far been enacted the old jurisdiction laid down in the Proclamation referred to above continues.

The Government have recently extended the limits of the town of Madras by a notification under section 62 of the Government of India Act so as to include a portion of the Mambalam zamindari area. It is considered necessary for administrative purposes that the limits of the jurisdiction of the High Court should correspond to the limits of the town of Madras and the Bill is intended to achieve this object.

20th January 1927. C. P. RAMASWAMI AYYAR,

BILL No. 4 OF 1927.

A Bill to amend the Madras Village Police Regulation, 1816.

WHEREAS it is expedient to amend the Madras Village Police Regulation, 1816, for the purpose hereinafter appearing; And WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act; It is hereby enacted as follows:—

1. This Act may be called the Madras Village Police Regulation Amendment Act, 1927.

2. In the first clause of section 10 of the Madras Village Police Regulation, 1816, after the words 'Village choultry' the words 'or in villages where there is no choultry, in the place where the head of the village holds such examination' shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

Under the first clause of section 10 of Madras Regulation XI of 1816, heads of villages are empowered to punish offenders in cases of a trivial nature, such as abusive language, inconsiderable assaults or affrays, by confining them in the village choultry for a time not exceeding twelve hours. This provision is extended by section 6 of (Madras) Regulation IV of 1821 to petty thefts not attended with aggravating circumstances nor committed by persons of notoriously bad character and where the value of the property stolen does not exceed Rs. 1. In Criminal Revision Case No. 263/20, the High Court (Sir Abdur Rahim, J.) ruled that a village headman had power to enforce the sentence of confinement only in the village choultry and nowhere else. The Government therefore issued instructions to the effect that village headmen should not exercise the powers conferred by the above provisions

in villages in which there are no choultries which form a considerable proportion of the total number of villages. In the result, there are no tribunals now for the trial of petty criminal offences in villages in which there are no choultries unless steps are taken to constitute panchayat courts in them under the Madras Village Courts Act (Act I of 1889). This is not always practicable. It is therefore considered expedient to amend the first clause of section 10 of Madras Regulation XI of 1816 so as to empower village headmen to confine the offending party, where there is no choultry, in the place where the head of the village holds his court.
